OBITUARY

Tami Ann Freedman

Tami Ann Freedman, 63, passed away unexpectedly at her home in Lewiston on Monday, October 28th. Born on August 5, 1961 in Regina, Saskatchewan, Canada, to Martin Freedman and Enes Butts, she grew up in Hartford, Connecticut and graduated from Newington High School in 1979.

She had a variety of jobs over the years, but loved her most recent job at Central Maine Medical Center and always talked about her many fun co-workers. She had an amazing, outgoing personality and always brought joy and smiles everywhere she went.

Tami, "Bumma", was known for her unwavering dedication to her family, especially her grandkids. She gave them all the care, attention, hugs and smiles one could ask for. She was always their biggest fan, clapping so loudly that it didn't matter who wasn't.

She loved family time and having barbecues, going to the beach, watching movies and listening to Motown. She had a love for coffee, cats, the color purple and singing along to her Temptations songs. She loved celebrating holidays and bringing grandkids buckets of candy and toys and was always ready to throw a party. Outside of her work and family she enjoyed doing puzzles, and loved her cat, Ry Ry.

Tami leaves behind a large family. Her mother, whom she loved most dearly, Enes Butts from Connecticut; her sister, Stacy Brookman, and husband, Tommy, from Connecticut; her brother, Dan Moran of Colorado; her three daughters, Katrina Crowell, her husband, Jason Crowell of Freeport, Shannon Buck and Jasmine Freedman of Lewiston. She also leaves behind many grandchildren which she adored more than anyone else, Lukis, Vivienne, and Xavier Crowell of Freeport, Nevaeh Walker and Aurora Morrow of Lewiston, Destiny and Tyler Davenport of Virginia, and Dillon Tucker of Portland. She had two nieces, Megan and Sara Brookman of Farmington, Connecticut. Tami also leaves behind her best friend of 40 years, Marianne Prescott and her two kids, Matt and Renee; and the many aunts and uncles and cousins whom she loved very much.

She is preceded in death by her father, Martin Freedman and the love of her life, Lynel Moultrie.

The family welcomes all who wish to attend a memorial service in celebration of Tami Freedman's life to be held Saturday, November 16, at the Trinity Episcopal Church, 247 Bates St, Lewiston, Maine at 2:00 p.m. The family will accept any flowers between 1-2 PM on this day and they can be delivered or in person to the Church add ve.

Randi's continued search for a living kidney donor...
Please consider a Gift of Life.

Dear Friends & Family,

Some of you may know that I have kidney disease. Over time, my kidney disease has gotten worse, causing my kidneys not to work well enough to keep me alive. My treatment options at this time are limited to dialysis or a kidney transplant. I have been on dialysis since May 2023, 3 days a week for 4 hours each day, which is helping my kidneys do their job of removing wastes, toxins, and extra fluids. But the longer you are on dialysis the more your health deteriorates.

However, a living donor kidney transplant would offer me much more freedom and the ability to live a longer, healthier, and more meaningful life. A transplant would also give me more time to do the things I love most, such as spending time with my family and friends, my partner Nick, my pets, helping others, and being outdoors.

Finding a kidney is not easy. People who are on a wait list for a kidney from a deceased donor often have to wait 5-10 years and the kidney on average lasts 10-15 years. But the average wait list for a living kidney donor is much shorter, and the kidney typically lasts 20-30 years. It also has much better function.

In order to donate, living kidney donors get a careful and thorough evaluation with their own team of health professionals to see if you could be a match for me and to ensure that living donation is as safe as possible for you.

I would like to share with you some basic information about kidney donation.

- 1) You only need one kidney to live a long, healthy life.
- 2) The surgery for a donor is done laparoscopically, meaning through tiny incisions, and the recuperation period is fairly quick, generally only a few weeks.
- 3) The cost of an evaluation and surgery would be covered by my insurance. There are also programs like Donor Shield to help cover other expenses.
- 4) Although I am O+ blood type, you do not necessarily have to have the same blood type or tissue type to be a match.
- 5) There is no age limit to be a donor. You just have to have a healthy kidney.

In order to express your interest in becoming my kidney donor, you can fill out the form at this link: mmc.donorscreen.org/register/now. Upon submission, the Maine Transplant Program will be in touch with you. To learn more about kidney donation, you can go to the National Kidney Foundation's website: www.kidney.org/livingdonation or call Jullie Hoggan, kidney transplant navigator, at Square Knot Health: 617/468/1382. There are also many other websites that can help you learn about kidney disease and donation.

Thank you for taking the time to read my story. Major ways you can help me is to share it with your friends and family and on social media.

With much appreciation,
Randi Gelfman
